

Minister Erma Jean Watson

February 29, 1932 - April 28, 2020

Obituary

Minister Erma Jean Watson stepped into her eternal presence “In Glory” on Tuesday, April 28, 2020 at her home with her family present. Affectionately known as Jean, Mom and Aunt Jean: she is one who IS still greatly loved by her children, grandchildren, great- great grandchildren brothers, sisters, a multitude of nieces, nephews, cousins and friends.

Minister Watson was one of the pioneers in ushering in the era of females in the pulpit of which she was most proud. She had the canniest ability to make a memorable Impact on anyone’s life once she met them by impressing the importance of having Jesus in their lives.

She would never say goodbyeonly God Bless.

Until we see you again....

God Bless.

Services Pending.

“ *Les and the entire Watson Family, Please accept my the lateness of my condolences. Ms. Jean was such a sweetheart to me. I met her when she came to work for Ivanhoe Neighborhood Council through the AARP program. She was a joy to be around and always lifted my spirits. I was so sad when she no longer worked at our neighborhood office. I'm saddened today to hear of her passing. Blessings to you all!*

“ I decided, I could not let another day pass without coming to say "Goodbye" to this phenomenal woman. Its so hard to say good bye, especially because due to these trying times I don't feel that I have been allowed to properly say good bye. I love you, because you love me first, completely and without hesitation. You never made me feel like I was excess baggage, but always as "your daughter". And that I will always love you for. A lot of everything I am, and ever will be is due to you. You taught me to make the best sweet potato pie an peach cobbler. I remember you told me that you prayed for me when I had went back to California, you prayed for me when I had moved to Texas, you even said you prayed for me to move back to Kansas City. I remember that you told me it was my assignment from God to take care of my dad. "after all you said: somebody got to do it. I learned do much from you over the years, know that you hated to leave us here, but I know where you are going and its such a better place. So go with God, and enter into your rest, You lived a life that I know was pleasing in God's eyesight. And that's what really matters. Goodbye Mom, I will always Love YOU!

“ *AuntJean was our family matriarchs day and our family leader. She sang with the soul singers gospel group, I also sang with her for a period. She loved playing scramble and was a scramble master. She was skilled sewing and crafts. Mostly she loved her family and was the driving force behind our annual family Labor Day picnic at the old homestead. But her greatest joy was presenting the lord and salvation to anyone who would listen. She was a pioneer and courageous as a woman in the pulpit. She spread the word and impact the lives of souls throughout Kansas City. She even presented me with my first biblical study guide. One of her last acts was to muster strength to pray safety for the Watson family during the pandemic. She leaves a huge hole in the leadership of our family. But she has taught us well. We recognize that we are a continuation of generations. As she would say” trust in the Lord and you will be ok”. Love you aunt Jean.*
